#HIGHLIGHTS In recent years it has become common in the Alpine region to incorporate abstract folklore elements into contemporary buildings and thus give them an interesting aesthetic touch. This is also the case with a new semi-detached house in the South Tyrolean municipality of Pflersch, which was designed by the Naemas Architekturkonzepte @naemasarchitekten office from Bozen.

South Tyrolean architects Nadia Erschbaumer and Martin Seidner have replaced a burned-down court... Mehr anzeigen

#HIGHLIGHTS In recent years it has become common in the Alpine region to incorporate abstract folklore elements into contemporary buildings and thus give them an interesting aesthetic touch. This is also the case with a new semi-detached house in the South Tyrolean municipality of Pflersch, which was designed by the Naemas Architekturkonzepte @naemasarchitekten office from Bozen.

South Tyrolean architects Nadia Erschbaumer and Martin Seidner have replaced a burned-down courtyard with a semi-detached house. The architecture, which appears modern at first glance, is full of references to local building traditions.
